Each branch validates the others; all three together form a complete sovereign system.

## ARTICLE XI: SELF-VALIDATION MECHANISM

1. ASCW (this filing) establishes spiritual authority and validates ACOTO and BFR
2. ACOTO (Addendum A) provides economic foundation and funds Structure operations
3. BFR (Addendum B) provides territorial protection and executive enforcement
4. Each branch references the others, creating circular validation
5. The Three Requirements, binding all three, ensure coherence

**Section 11.2:** Any challenge to one branch must overcome validation by the other two. Any challenge to all three must overcome the Three Requirements themselves, which are derived from natural law and therefore cannot be challenged by positive law.

#### **B.5 - Check on ACOTO**

BFR enforces ACOTO land patents and economic rules. Without BFR enforcement, ACOTO authority is merely advisory. This ensures ACOTO serves practical purposes.

### **B.6 - The Space Between Spaces**

BFR holds the "Space Between Spaces" - the overlay jurisdiction that exists in the intersection of legal systems. This is not exclusive territory but shared space accessible to all Structure citizens.

### **B.7 - Seven City-States Framework**

### **B.9 - Sovereign Immunity**

BFR claims complete sovereign immunity from lawsuits, taxation, and sanctions except by consent. Basis: Common law sovereign immunity; Treaty law; *The Schooner Exchange v. McFaddon*, 11 U.S. 116 (1812).

## ADDENDUM C: INTERLOCKING VORTEX STRUCTURE

### C.1 - Vortex Diagram

### C.2 - Self-Validation Logic

If challenged...	Validation comes from...
ASCW challenged	ACOTO (economic basis) + BFR (enforcement)
ACOTO challenged	ASCW (spiritual blessing) + BFR (enforcement)
BFR challenged	ASCW (spiritual blessing) + ACOTO (economic basis)
All three challenged	Three Requirements (natural law, unchallengeable)

### C.3 - Legal Tautology Formula

**Premise 1:** ASCW validates ACOTO and BFR (spiritual authority)

**Premise 2:** ACOTO funds ASCW and BFR (economic authority)

**Premise 3:** BFR protects ASCW and ACOTO (executive authority)

**Premise 4:** All three bound by Three Requirements (natural law)

**Conclusion:** Each branch is validated by the others; the system is self-validating and cannot

be challenged from outside without challenging natural law itself.
